## PETERS

FOR APPRECIATED GIFTS

## LITTLE ITEMS OF LOCAL INTEREST

Miss Phyllis Hephner and Miss Della Hoffort, who have been employed at the Carbon Hotel, left on Tuesday for their homes in North Dakota, U.S.A.

George Malton was a Calgary visitor on Friday last.

The roads to Calgary are still passable, although rough in spots and the occasional snow drift.

Mr. and Mrs. Robt. Levins and Mrs. Mary Horne left last week to spend the winter in Vancouver and California.

Read of the Bargains that W. A. Braisher is offering this week. See his advertisement in this issue.

The Elk's Christmas tree for the kiddies of Carbon and district, which was held on Monday night, was quite successful. The program opened with a free picture show in the Farmers' Exchange hall and following this the children went to the Elks' hall, where a Christmas bar of Candles, nuts, etc., was distributed to each child present. Many of the farmers and their families of the Carbon district were in for this occasion and and who were not are being looked after.

—What about a New Velour hat for him. A gift certificate from Peters will solve the problem.

FOR SALE—Pure bred government branded Bronze Turkeys, 3 hens, grade B, 3 prizes Calgary Poultry Show, 6 Toms 25 to 28 lbs. Young hens 15 to 17 lbs.—Mrs. Ed. Burke, phone 1606, Three Hills. 4tc

Don't forget the dances in the Farmers' Exchange hall on New Year's Eve.

## Peace On Earth, Goodwill Toward Men

"Interdependence," a monthly review published by the League of Nations Society, in Canada, has rendered a real service to Canada, and incidentally to the cause of world peace, by printing its current issue the complete text of the magnificently inspiring speech delivered by the Rt. Hon. J. Ramsay MacDonald, at the state dinner tendered him by the Government of Canada, in the House of Commons at Ottawa. Mr. MacDonald's fine message to the Canadian people, containing such a sincere and impassioned plea for international understanding and a will to peace, was listened to over the radio by hundreds of thousands of people in this country and the United States. That national service is now strengthened by the reprint of the full text of Mr. MacDonald's speech, thus enabling people to read this message again and ponder over it at their leisure.

This same issue of "Interdependence," which, by the way, is distributed to members of the League of Nations Society throughout Canada, or can be had for the trifling subscription price of one dollar a year, also contains the text of the address given by Roch Pinard, the 13-year-old Quebec boy, who won the International Oratorical Contest, held at Washington, D.C., before President Hoover, in October last. The subject of Roch Pinard's address was "Canada Among the Nations," and, like Premier MacDonald's speech, is one well worthy of the consideration of the people of this country. It will intensify a Canadian's pride in, and love for his Dominion. Equally important, and essential to that pride and love, it will further impress upon all readers the absolute necessity for the cultivation of understanding and goodwill among all classes of the Canadian population, based on knowledge, which alone can render ineffective those periodical appeals to passion and prejudice through which designing persons seek to sway the emotions of our people. Mutual understanding, mutual goodwill, mutual appreciation of each other's good qualities, must exist as the basis of peace and cordiality of relations among the various races which make up Canada's cosmopolitan population.

Domestic peace in Canada, it is hardly necessary to say, is the first requirement if this Dominion is to successfully play the role of peace protagonist among all the nations, and an effective member of the League of Nations. From the inception of the League of Nations, Canada has been one of its most influential members. The influence of this Dominion in the councils of the nations is far greater than its population and wealth and world power would accord to it. That influence radiates from the successes already achieved by Canada in solving for itself some of the most vexatious problems now troubling older countries. That influence can be retained and further extended to the extent only that Canadians themselves put into every day practice those rules of conduct which the maintenance of peace among all nations demands shall be observed.

Canada stands for world peace. This fact is recognized by all nations. It is also recognized that as a people we have no ulterior motives in our membership in the League of Nations; that our presence there is solely from a desire to serve others and further the cause of international goodwill and world peace. As a people we unhesitatingly and uncompromisingly bore our burden when an unwelcome war was forced upon mankind. We gave in unstinted measure, and we are paying our own bills without asking help from anybody. This is recognized and appreciated by other nations, and our influence is correspondingly great. So, too, is our responsibility. We must, therefore, first of all be true to ourselves and to those ideals we advocate for adoption by all other peoples and nations.

Finally, "Interdependence" notes with satisfaction the offer of Premier Mackenzie King to provide suitable copies of the Briand-Kellogg pact outlawing war to Provincial Departments of Education which will undertake to distribute them to the schools, and to churches which will give it a place in their edifices. Unquestionably the future peace of the world depends on the determination in the minds of the people, consequently through the schools and churches can the next generation be best reached. The pact, to which Canada's signature is attached, outlawing war as an instrument of national policy, should have a place on the walls of every church and school throughout this broad Dominion. It is a message of "Peace on earth, goodwill toward men."

### Congratulates Winner

**Herman Trelle Is Pleased That Red Spring Reward Wheat Takes Highest Honors**

"Nobody is more pleased than I am over the fact that Joseph Smith, of Wolf Creek, Alberta, has won the world's wheat championship at Chicago," declared Herman Trelle, of Wembley, Peace River, former holder of the championship. "I am particularly pleased that Red Spring Reward was the winning wheat."

It was recalled by Mr. Trelle that the district where the championship wheat was grown was not considered previously as a particularly good wheat country. The success attained by Mr. Smith, he added, showed that varieties of grain can be adapted for any conditions in Alberta and are bound to prove successful if the experiments are made by persons with the qualifications of the 1929 champion.

## Smothering Spells Couldn't Walk Far Gaspd For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes: "For over a year I was troubled with smothering spells, and it was impossible for me to walk, even a short distance, on account of having to gasp for breath. A friend told me to try

which I did, and in a short time I felt much better. I can now recommend them to everyone."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1816

### Clothing and Safety

**Industrial Institutions Enforcing Rules Against Ragged Work Suits**

Workmen on the Chicago, Milwaukee and St. Paul Railroad will henceforth wear form-fitting clothing. There will be no more ragged sleeves, dangling tatters on shirts, or flapping shoe soles. The matter of neatness enters into the decision to enforce these regulations, but the greater factor is that of safety.

It is only within the last few years that those in charge of industry have come to a full realization of the danger that lies in loose and ragged clothing. Men working about moving machinery are in constant peril, if anything is dangling from their clothing which is likely to become caught in a belt or flywheel. The constantly increasing number of accidents from this cause finally taught its lesson, and more and more factories and other industrial institutions are enforcing rules of safe dressing.

As a matter of fact, a large part of safety in industry has to do with clothing.

### Largest Free Tree Distribution

**8,673,650 Trees Sent Out To Prairie Farmers In Spring Of 1929**

The number of trees distributed in the spring of 1929 from the forest nurseries maintained by the Forest Service, Department of the Interior, at Indian Head and Sutherland, Saskatchewan, was the largest ever sent out in any one year. The total number of trees sent to farmers in the Prairie Provinces was 8,673,650—4,369,174 from the Indian Head nursery, and 4,313,475 from the Sutherland nursery. The total number of applicants who received trees was 7,452.

Douglas fir trees produce almost a quarter of the lumber output of this country.

Waters of the deep sea cover 115,000,000 square miles with an average depth of two miles.

## General Conditions Fundamentally Sound

**Sir Charles Gordon, President, at Annual Meeting of Bank of Montreal, Draws Attention to Great Strides Made by Canada During Recent Years.**

Sir Charles Gordon's presidential address at the annual meeting of the Bank of Montreal will exert a far-reaching influence upon economic conditions in Canada.

Reviewing the business situation in Canada, Sir Charles referred to the unbroken expansion of the first ten months of the year and extending back over a five-year period, the most marked advance being in the field of mining, and he said that Canadian activity was such that the Canadian banks took no special advantage of the high rates offered in New York; their money was fully employed in the Dominion "and every legitimate need of this country was taken care of at much lower rates than prevailed in the United States."

There is good ground for general business confidence in Sir Charles Gordon's statement that no inflation is apparent in any of the basic commodities of Canadian commerce. He spoke frankly of such unfavorable influences as the reduction in the crop and its slow movement, and the collapse of stock market prices. On the other hand, mining and industrial development in the West, and branch-line railway construction, are beneficial influences; building has been at its peak; markets are being found for new developments of hydro-electric power, and while immigration shows a decline there is also a reduction in the loss through emigration. Coming to the trade situation in Canada, Sir Charles said in part:

"Fundamental conditions are sound, and there is no reason for apprehension as to the ultimate future of Canada."

### General Manager's Address

Mr. H. B. Mackenzie, the general manager, surveyed the bank's operations of the past year and made a pregnant diagnosis of actual economic conditions.

Mr. Mackenzie's analysis of the salient features of the balance sheet is not only convincing of a healthy growth in the volume of the bank's business and of its strong liquid position, but it is testimony also of a determination to continue the sane, sound and energetic management that is traditional of the institution. "Our customers in all lines of production and commerce," he said, "have, as always, been our chief care, and their needs have been fully supplied; but we have recently been declining numerous applications, large and small, for loans against 'good collateral but to be used for other than business purposes, generally the purchase of securities. These applications had become so numerous that they threatened to encroach upon the money needed to finance the country's business."

There is in the proceedings at the Bank of Montreal meeting abundant proof that credit is sound. "Business," Mr. Mackenzie said, "will be somewhat quieter while we are getting back to realities, but the realities in both countries—Canada and the United States—afford firm basis for a healthy optimism."

### Interesting Wild Life

Many interesting wild animals known to most people only in a zoo can be seen and studied in their natural environment in Waterton Lakes National Park, in the southwest corner of the province of Alberta. In this reserve there are big-horn, or Rocky Mountain sheep, mountain goat, black bear, moose, elk, beaver, and many kinds of small fur-bearers.

**No More Asthma.** Dr. J. D. Kellogg's Asthma Remedy sounds the death knell of this trying trouble. It stops the awful choking and painful breathing. It guards against night attacks and gives renewed ability to sleep and rest the whole night long. Much is claimed for this remedy, but nothing but what can be demonstrated by a trial. If you suffer from asthma try it and convince yourself of its great value.

### Synthetic Gold

G. P. Aston and H. W. Attack, two chemical research workers, of New Zealand, have made the statement that through an electric magnetic process they have been able to change certain elements into gold. During their research Aston claims he discovered a new force, "chromadyns," which is said to be ten times more powerful than electricity.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Exterminator.

### Manitoba Telephones

The Manitoba Telephone System reports a noteworthy increase in net earnings for the ten months ended September 30th, being \$243,887 as compared with \$187,977 for the same period of last year.

Minard's Liniment for Chapped hands.

## Making Survey For Gibraltar Tunnel

**Work Likely To Involve Large Political As Well As Engineering Features**

The work of examining the rock strata of the Straits of Gibraltar for a tunnel between Europe and Africa is under way, but while the attention of the world is focused on its structural problems, the tunnel also has involved political and engineering features.

During the World War the captain general at Cadiz, who now is Premier Primo de Rivera, made a speech suggesting that Spain join the war on the side of the allies and that in return for this England should give Gibraltar back to Spain. The captain general lost his position for making this speech as an official. This was Primo de Rivera's first political speech.

When Primo de Rivera became dictator in 1923, no one remembered the action of the former captain general at Cadiz. Spain always has had a secret desire to get Gibraltar back and it is expected the tunnel project will be an excuse to reopen the subject. It is obvious that if the premier made an arrangement to get Gibraltar back it would be an achievement that Spain never would forget.

A retrenchment program has been announced for Spain, and it is doubted that it would spend money on the tunnel for years. It is not expected that England would part with Gibraltar, but if the tunnel leads to the reopening of negotiations by which Spain would regain possession on the basis of a lease for 100 or 500 years, possibly with a renewal option, there would be great rejoicing at Madrid.

Miller's Worm powders will clear the stomach and bowels of worms, so that the child will no more be troubled by their ravages. The powders are sweet to the taste and no child will object to taking them. They are non-injurious in their composition, and while in some cases they may cause vomiting, that must not be taken as a sign that they are nauseating, but as an indication of their effective work.

### Outwitted Police

Students of Ogdensburg, Hungary, who were resolved to conclude their demonstration of protest against the reparations payments, kept police at bay by singing the national anthem during their speeches. The police were forced, in accordance with army orders, to stand inactive at attention, while the singing continued.

### Constructing Central Heating Plant

The Northern Engineering and Development Company, Winnipeg, has taken out a permit for \$60,000 for the construction of the first unit of the central steam heating plant, and work will be begun at once.

### Commander Byrd Defended

**British Explorers Cannot Understand Reported Charges Of Norwegian Airman**

British explorers came to the defence of Commander Richard E. Byrd, against the reported charges of Major Trygve Gran, Norwegian airman and explorer who was a member of the Scott Antarctic expedition.

Major Gran was quoted in a Copenhagen despatch to the Daily Mail, as saying that the terrible mountains which Commander Byrd described were a fantasy.

Captain R. G. England, who commanded the "Nimrod" of Shackleton's first expedition in 1907, said he could not understand Major Gran's reported statement.

"It is all the more extraordinary because Gran was one of Scott's men," said Capt. England. "It would be nothing short of a miracle if Scott's men did not see mountains near the South Pole. On the east there is the Queen Alexandra range, 15,000 feet in height, and on the west the Queen Maud range which is about the same height. These mountains have been actually surveyed and measured."

Captain William Olbeck, who was a member of the Southern Cross Expedition of 1898-99 said: "It is well known there are mountains near the South Pole. Commander Byrd would probably see them from 100 miles away because of his height in his aeroplane. His was a magnificent flight."

**Persian Balm** is magical in creating alluring complexions. A little gentle rubbing and your skin is invigorated and touched with the true beauty of youth. Charmingly fragrant. Delightful to use. Cools and caresses the skin. Relieves all roughness and chafing caused by weather conditions. Tones and stimulates. Enhances and protects the loveliest complexion. Unrivalled as a perfect aid to beauty and charm.

The Coast line of Great Britain measures 2,755 miles; Italy's exceeds this by about 300 miles.

Minard's Liniment for Coughs.

The two most widely spoken languages in Europe are German and Russian.

## Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

**Appleford Paper Products**

## AUBURN PRISON RIOT QUELLED BY STATE TROOPS

Auburn, N.Y. — A beaten, sullen group of convicts saw the law wrench from its grasp control of Auburn prison, gained during the day at the cost of eight prisoner's lives and the death of the principal keeper.

The second attempt within five months of a chosen group of desperate men to gain their freedom in a prison break collapsed under the gunfire of three hundred besiegers. Holding absolute control of the prison at the outbreak of the trouble, with Warden Edgar S. Jennings and seven guards in their hands as hostages, the convicts watched their plans go awry until night fall found their ring-leaders dead and the survivors in their cells awaiting the search of state police.

The prison's principal keeper, George A. Durnford, died in an attempt to fight off the attackers at the inception of the riot.

The collapse of the convicts' plans began when State troopers whisked from their hands, under cover of a gas attack, the warden and guards and ended when a concerted drive of the besiegers hurled them from the main gate into a remote corner of the south cell block.

The first word of trouble reached Warden Jennings at 10 a.m. He left his office, went to the prison kitchen to check the report and was seized as he started back to the office.

Prodded along by a revolver in the hands of one of the three convicts, the warden approached three unsuspecting guards who were disarmed and forced to open the doors of the punishment cells. In a similar manner, other guards were captured.

Principal keeper Durnford appeared on the scene and the convicts attempted to capture him also. Failing in this, three of the mutineers shot him and left him lying outside the back hallway into which they shoved their prisoners. Durnford dragged himself out of reach and was helped by an unidentified convict. He reached the prison hospital but died a few minutes later.

### Using Tractors On Desert

French and Chinese Scientists Conducting Expedition Without Camels

Peiping.—Gasoline driven tractors are to replace camels on a desert expedition being organized by French and Chinese scientists to cover unexplored parts of North China and Indo-China next year. The purpose of the trip is to carry on scientific research and is to be conducted jointly by the National Scientific Union of China and the Citroen Motor Car Company of France.

The Chinese expedition is to start from Peiping in February and plans to meet up with the French explorers, now in Persia, after the tractor brigade has crossed Russian Turkistan.

### Protest From Britishers

Resent German Practice Of "Dumping" Cereals Into Old Land

London, England.—The British foreign office should make representations to Germany indicating unfitness of the German practice of "dumping" cereals into Great Britain, urged the agricultural committee of the conservative parliamentary party, meeting in the parliament buildings to consider the importations of cereals from Germany under the bounty system. The importation in large quantities was a breach of the spirit, if not of the letter, of the mutual obligations which had been entered into, the committee added.

### Fort Chipewyan Gets Mail

Edmonton.—December 11 was mail day at Fort Chipewyan far up in the northeast corner of Alberta. Two planes of Commercial Airways, Ltd., made the 160 mile jump from Fort McMurray to Chipewyan on Lake Athabasca. They carried the first consignment, half a ton of air mail, under the Dominion plan which will bear letters to within the Arctic circle.

W. N. U. 1816

## Three Fighting For Earldom Of Egmont

Legal Battle To Prove Claim Opens In London

London, Eng. — A cowboy, a baker, and an optician opened their legal battle here to prove their conflicting claims to the Earldom of Egmont.

The cowboy is Frederick Joseph Trevelyan Perceval, 56, for 28 years a rancher in Alberta, Canada.

The baker is James William Perceval, 65, a resident of London, and the father of six children.

The optician is Robert Pownall, an old-age pensioner of Haydock, Lancashire.

Whoever wins the three-cornered fight will become Earl of Egmont. Baron Perceval, Baron Arden and Baron Lovell and Holland. The value of the estates to which he will succeed is estimated at from \$500,000 to \$1,000,000.

The rival claimants to the Egmont title and fortune have searched the family records back to 1733, when the title was granted. In their attempt to fill several blank spaces in the Perceval genealogical table and thus substantiate their individual claims they have carried their investigations as far as Australia.

### Three Perish In Arctic

Word Was Brought Out By Major L. T. Burwash

Ottawa, Ont.—News of the death of three natives of Scotland occurring in the Canadian Arctic was brought out by Major L. T. Burwash, of the Northwest Territories branch of the Department of the Interior, who arrived in Ottawa at the end of an 18-months trip, which took him along the northern coast of Canada from Akilavik to Boothia Peninsula.

Harold Lucca, of the Hudson's Bay Company, was swallowed up by a raging blizzard seven miles out of Gjoa Haven. Ian McKay Christie, also of the Hudson's Bay Company, died at Bathurst Post under similar circumstances after Lewis T. ("Slim") Rader, engineer of the Ptarmigan. Major Burwash's boat, had half carried and half dragged him across the frozen wastes for 30 hours. Another man, recruited by the Hudson's Bay Company, from Scotland, died on Coronation Gulf after he had broken through newly formed ice, over which he was walking. The freezing water gradually exhausted him.

## Plan Additional Ships For Canadian Trade

Government Has Taken The Matter Under Consideration

Ottawa.—The Canadian Government has under consideration the establishment of several additional steamship services for the promotion of Canadian trade abroad, Hon. James Malcolm, Minister of Trade and Commerce, announced. This was an outcome of the success which followed the inauguration of the new government subsidized steamship freight service between British Columbian ports and Australia. Tenders have been called for services from eastern Canadian ports to India, Ceylon and East Africa.

### Takes Name Of Benefactor

Russian Youth, Flotsam Of Late War, Becomes Canadian Citizen

Barrie, Ont.—An 11-year-old Polish lad, starved, clad in filthy rags and broken by overwork, found his way to an encampment of Canadian soldiers at Soroka, Siberia, at the time of the Russian revolution, 12 years ago. Grown to manhood, John Petroskey applied yesterday to Judge Wismer for naturalization papers and he adopted the name of George Harvey, the name of the Canadian soldier who had proved his principal friend in the old days and who had seen him established in Canada. George Harvey, the first, was in court to corroborate Petroskey's strange story.

### Was Well Known Merchant

Vancouver, B.C.—Charles Hamilton Carroll, aged 77, well known as a merchant in various parts of Saskatchewan, until his retirement six months ago, is dead here. Funeral services were held Dec. 12, with interment in Ocean View Cemetery. Mr. Carroll was born in Warwick, Lambton County, Ont.

## AMERICAN LEGATION SECRETARY

Ben Reath Biggs, who, it has been officially announced, is to be first secretary to the American Legation at Ottawa. When Ambassador Phillips leaves this month, Mr. Biggs will act as charge d'affaires until new ambassador arrives.

## Opposing U.S. Entry Into World Court

New Arrangement Does Not Satisfy Group In Senate

Washington, D.C.—Opposition to the new plan for United States entry into the World Court, as determined as that which met the original proposal for the adherence of the Washington Government, is developing in the senate.

The group of senators that three years ago voted against the United States becoming allied with the international tribunal, even under the reservations then attached, is apparently as much dissatisfied with the new arrangement as it was with the old.

How much of a factor in the senate's final vote this opposition will be, of course, remains to be determined, but notice has been given by the group, that the modification of the court's rules of procedure, affected in an effort to facilitate United States entry, is unacceptable.

### Market For B.C. Timber

Vancouver Business Men Sail For Antipodes To Study Markets There

Vancouver.—A crusade for greater markets in Australia and New Zealand for British Columbia lumber products was started recently by four Vancouver business men who sailed for the Antipodes on board the "Aorangi." They are J. G. Robins, T. T. Gadd, Major L. R. Andrews, and J. H. McDonald.

The four will study Australian and New Zealand requirements, will address various organizations, interview business and government heads and make extensive investigations.

## Are Close To Agreement

Alberta Hopes To Reach Settlement On Resources Question

Ottawa.—The Province of Alberta and the Dominion Government are close to an agreement as to the conditions for the return of the natural resources to the province, Premier J. E. Brownlee and colleagues put forward recently, and Premier Brownlee is remaining over, in Ottawa, to have further conference with Prime Minister Mackenzie King.

Some time ago the Dominion government announced that on the basis of the finding of the commission which investigated the return of the natural resources to Manitoba, it was prepared to make a corresponding offer to the Province of Alberta. At the time it was explained that this meant that Alberta would get back its natural resources and the subsidy to that province from the Federal Government would be continued and increased as the population of the province increased.

The negotiations are not so simple as would appear on the surface, however, because Alberta finds herself in a very different position from what Manitoba was. One difference is that in Alberta there are immense national parks, comprising some five million acres, said to be as much as all the other national parks of Canada put together. These parks include some valuable coal deposits. This requires special consideration.

## Japan Would Keep Subs

But Is Willing To Co-Operate In Armament Reduction

Victoria, B.C.—Reijiro Wakatsuki and Admiral Takarabe, heading the Japanese delegation to the forthcoming London disarmament conference, asserted that their country would go as far toward reducing its naval force as any other power.

The party are on their way to Washington before proceeding to London for the conference, which starts next month.

The former premier said his country desired to keep submarines as a naval weapon.

### Orders For Douglas Fir

London, England.—Orders for 200,000 railway sleepers of Canadian Douglas fir have been placed by the Great Western Railway Company. They will be used mainly in connection with the extension work approved by the government under the Development Act of 1929, aiding the unemployment situation.

### Another Grain Appeal Board

Brandon, Man.—Fort William will soon have a grain appeal board, such as are established at Calgary and Edmonton, states Dr. D. A. MacGibbon, member of the Board of Grain Commissioners. Such a board, to settle disputes over quality of grain, will shortly be established at the head of the lakes, he said.

## Royal York Buys Champs

In order to ensure a full larder for the coming festive season the Royal York Hotel entered the list of buyers at the Royal Winter Fair, Toronto, and secured the special carload lot of champion steers which created a great sensation among cattle experts throughout the fair. This champion herd of fifteen hand picked steers, bred and raised on the famed McIntyre ranch in southern Alberta, weighed in at slightly under 1200 lbs. apiece, and was heralded on all sides as the finest bunch of beef cattle ever to have been finished in Canada. It

was quite a dramatic moment when the steers were brought into the Coliseum and herded in the center of the ring.

The management also purchased the Grand Champion Wether of the fair and in addition the first prize carlot of ten lambs. A final purchase was the Grand Champion Steer, "Play Boy"—a perfect specimen of the Shorthorn Class—was raised by Ernest Robson, Denfield, Ont. The Royal York paid \$1.25 per lb. or a total of \$1,093. "Play Boy" weighed 875 lbs. He is shown in the above cut.

## LABOR PARTY IN BRITAIN FACING POSSIBLE DEFEAT

London, England.—Britain's Labor Government will be challenged in the House of Commons before Christmas on its unemployment policy, and as it is in the minority by 39, there is a real possibility of defeat on the question of the major policy.

Details of the schemes so far produced by Right Hon. J. H. Thomas, Lord Privy Seal, have failed to give any satisfaction to the Opposition parties, and the huge figure of unemployed—1,302,900, despite opportunities of reasonable employment before December 25—is contrasted with Mr. Thomas' plans which visualize a year's work for only 189,300.

In this connection Premier Ramsay MacDonald has agreed to having the question of the Lord Privy Seal's salary debated in the Commons before Christmas, and this occasion will enable the employment problem to be reviewed by all parties.

The Conservative and Liberal newspapers stress the inadequacy of Mr. Thomas' plans, although they sympathize with the tremendous task confronting him. The Conservatives are making the most of the opportunity to show that Labor cannot fulfill its election pledges, and the Liberals to demonstrate that Lloyd George's schemes as the only possible hope of solving the pressing problem of what to do with the hundreds of thousands without work.

Meanwhile pertinacious and persistent Empire crusaders are enrolling members of the public to pledge themselves to support the Empire as the only way to overcome the present economic difficulties and distress.

## Says All Are Insane

Dividing Line Between Sanity and Insanity Difficult To Detect

Windsor, Ont.—Everyone is insane, according to Dr. G. R. Cruickshanks, government inspector in insanity for the past 20 years, in a statement made here recently in an explanation of the remark he made in Supreme Court at Sandwich, before Mr. Justice J. M. McEvoy, that over 1,000 insane people walked the streets of Windsor.

"There is no line of demarcation between sanity and insanity," said Dr. Cruickshanks. "Some people are insane in the opinion of others, and yet might be regarded by the vast majority as being in full possession of their senses. It is often a matter to be decided by judges rather than doctors. There is no real distinction between sanity and insanity. Some of our most valuable citizens are 'cranks' and yet their work in life is very useful."

The doctor continued, however: "Some people, of course, had to have institutional care. We have to draw a line where we think that they will be benefited by such treatment."

## Goodwin Returns East

Last Member Of MacAlpine Party Leaves For Home In Hamilton

The Pas, Man.—Don Goodwin, the last member of the lost and found MacAlpine party to remain in the north, has left for his home in Hamilton, Ont., accompanied by Dr. Donald Bruce, of The Pas, who has attended him ever since rescuers took charge of the party at Cambridge Bay.

Goodwin, suffering from frozen feet when he arrived here, had three toes amputated and has been resting since the operation.

## No Agreement Reached

Return Of Natural Resources To Alberta Still Undecided

Ottawa.—No agreement was reached at the conference between Premier Mackenzie King and members of the Dominion cabinet with Premier J. E. Brownlee, premier of Alberta, on return of the natural resources to Alberta. At the conclusion of the conference which lasted for two hours, Premier Brownlee said that the representations of Alberta had been made but would be put in written form and sent to the Dominion Government.

Glasgow, Scotland, now claims a population of 1,055,000.

### THAT EXTRA HOLIDAY

In our last issue we mentioned the  
closing of all business places on Thurs-  
day, December 26th, so as to give ev-  
eryone a chance to rest up after the  
festivities of Christmas Day.

There has been little discussion of  
this among the business men and it  
will probably have to be taken up by  
the local Board of Trade if any action  
is desired.

Another Alberta town that will ob-  
serve this extra holiday this year is  
Strathmore. The merchants there have  
all agreed to close their places of busi-  
ness on December 26th and in this  
way perfect harmony will exist in  
Strathmore, as well as other towns  
which will observe this extra holiday.  
We would like to see Carbon enter in  
with other Alberta towns, by declar-  
ing a holiday on December 26th, and  
we believe that it would be advanta-  
geous for everyone. The little business  
that is done could be transacted on  
Tuesday this year and at the same  
time, with this additional holiday, em-  
ployers and employees would thor-  
oughly enjoy Christmas and its festi-  
vities.

### CREDULOUS GIVERS

We are a very credulous people, as  
is shown by the hordes of agents who  
for the last few weeks have been  
combing the town. These agents re-  
present, in most cases, worthy causes,  
which bear the stamp of legality.

But who amongst us takes the  
trouble to investigate. These people  
bear certain credentials. They say they  
represent this and that cause. If the  
individual approached has sympathy  
with the causes, or in some cases if  
he is busy and wants to bedefinitely  
rid of the canvasser, he digs down. The  
agent pockets the money graciously  
and disappears. And where does he and  
the money go?

Possibly in some central city agency  
we might be able to find records of  
our giving to this and that enterprise.

But who has ever taken the trouble to  
pursue the fate of his donation?

In the case of magazine agents, we  
do discover in the course of a few  
weeks, whether or not we have been  
stung. Entirely too often, we find that  
we have. But in the matter of these  
other causes, we give blindly. And  
all too often we can be lured into  
giving money for lepers in the South  
Seas, or some such abstract cause,  
while we ignore completely some real-  
ly practical need at our very door.

This is not intended as a knocking  
of the various far off worthy enter-  
prises which solicit through the towns  
so much as a closer checking up of  
the alleged representatives.

—Vulcan Advocate

### "MY TOWN" WILL GROW

Mr. R. W. Fisher, editor of the Walla  
Walla Union, says:

That most every town just happened  
at the start.

That the growth depended on faith.

That when a man has faith in a  
town he is proud of it.

That when a man is proud of his  
town he is proud of his community,  
his estate, his nation.

That when he is proud of his town  
he will fight for it, just as he will  
fight for other things he considers as  
his.

That one of the biggest assets is  
the man who says, "It is my town."

That when you get a whole group  
to look upon it as "My town" you can-  
not stop the growth of that town for  
other folks want to cast their lots with  
a place of that sort.

The sooner it becomes "y town" to  
all the people, the sooner it will grow.

Michael and his wife were at a thea-  
tre for the first time. The wife noticed  
the word Asbestos on the curtain.  
"Faith, Michael, what does asbestos  
mean?" she said. "Be still Maggie and  
don't show your ignorance. That is the  
Latin word for Welcome," replied  
Michael.

.....

Alice: "But surely you didn't tell  
him straight out that you loved him?"  
Flossie: "Goodness, no! He simply  
had to squeeze it out of me."

## We Print

Letterheads, Note Heads, Envelopes,  
Loose Leaf Account Forms, State-  
ments, Bill Heads, Tax Receipts and  
Notices, Firm Cheques and Vouchers,  
Mine Forms of all Descriptions, Cards,  
Tickets, Posters, Auction Sale Bills,  
Etc. In fact everything that is Print-  
able, we can print.

The Carbon Chronicle has printing  
equipment equal to most of the large  
city shops and is capable of turning  
out work of quality and distinction at  
reasonable prices. This is all that you  
can ask and we are making a bid for  
ALL your printing requirements.

We are capable of doing the work.  
You can at least give us a trial before  
going to outside concerns for your  
printing matter.

### The Chronicle

Phone 37 — Printers & Publishers

## Who Does Your Printing?

All business houses need more or less printed matter, all of which  
is within the possibilities of the local printer. Yet how prone  
many are to pass up the home printer and let the orders go to  
city offices which have no interest whatever in rural communities  
except to get printing orders and the cash to pay for them. Busi-  
ness men, remember that the home paper is constantly promot-  
ing the interests of the home community and you owe it to your-  
self and your local paper to back up these efforts by at least hav-  
ing your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT

## A BUYING GUIDE !

**B**EFORE you order dinner at a restaurant you consult the  
bill-of-fare. Before you take a long trip by motor-car, you  
pore over road maps. Before you start out on a shopping tour  
you should consult the advertisements in this paper. For the  
same reasons!

The advertising columns are a buying guide to you in the pur-  
chase of everything you need—including amusements! A guide  
that saves your time and conserves your energy; that saves useless  
steps and guards against false ones; that puts the s-t-r-a-t-e-g-y  
in family budgets.

The advertisements in this paper are so interesting, it is diffi-  
cult to see how anyone could overlook them ..... fail to profit  
by them. Just check with yourself and be sure that you are read-  
ing the advertisements regularly—the big ones and the little ones.  
It is time well spent ..... always.

AVOID TIME WASTING, MONEY WASTING  
DETOURS ON THE ROAD TO MERCHANDISE  
VALUE. READ THE ADVERTISING "ROAD MAPS."

## Escaping Winter at Victoria

Early in the new year, and following an eight-day Yuletide Festival at the Empress Hotel, the same hostelry will be the scene under Canadian Pacific Railway auspices of a Sea Music Festival, January 15-18, at which British and Canadian sea chanteys will be featured. Among the more outstanding will be the ballad operas, "The Order of Good Cheer", incorporating old French sea songs of the period of Champlain; "Bound for the Rio Grande", an opera filled with many favorite sea chanteys; and a fisherfolk play written by Ethel Bassin, "At A Lews Fishing." Fine voices, first-class choirs, some of them from the United States, others native, and excellent instrumental effects

will all be in evidence under the musical direction of Harold Eustace Key. Lay-out shows scenes from "Bound For the Rio Grande," "Fishwives Dancing," and "The Order of Good Cheer." Following the sea music festival, there will be staged in February the Victoria mid-winter golf tournament at Colwood Park, with a special trophy presented by E. W. Beatty, chairman and president of the Railway, which was first held with such success last year and attracted a fine entry list. Victoria, where grass is green and flowers bloom the year round, will thus again prove its title to be considered the Riviera of Canada with a mild climate making it a pleasant rest resort in winter.

## TIGERS WIN FROM SHAMROCKS

The first hockey game of the season was played at the rink on Friday night last between the Wacker Tigers and the Carney Shamrocks, the Tigers being victorious by a score of 8-1. The game was slow on account of snow on the ice, and in future it is to be hoped that the rink will be cleared before the games.

On Tuesday night of this week the Farmers' Exchange Hornets met the Carney Shamrocks and the game was close and exciting, the Hornets finally winning out by a score of 2-1.

This has been the first hockey of the season between the teams in the local league and it is expected that some good hockey will result.

## THE WEEK BEFORE CHRISTMAS.

It was the week before Christmas. The centre of thought is now not far away but is centred in each home. It glows about father and mother and brother and sister and shines with brighter radiance, for it is the self-centred thought of love. The very air is surcharged with kindness to others. All the thoughts of this week will be about what sister will be most pleased with and how happy mother will be when she sees that nice—but that's telling and half the pleasure comes from the concealment. Half the good of giving comes from keeping the left hand from knowing what the right hand is doing. Nobody doubts the pleasure of Christmas morning, but the pleasure of the week before is just as intense and is longer drawn out.

The morning of Christmas day is rich in its reverence and smiles; but the week before Christmas day is educational to the soul and heart. It begins to sprout at Thanksgiving and it swells until the week before Christmas, when it is ready to burst out into full bloom from the accumulated sap of human kindness by which it has been fed. The week before Christmas has never had its dues. The brightest week before Christmas that ever happened was some fifteen or fifty years ago—it is tedious to count dates. You remember all about it. You were a little thing, but you never in after life was quite so important to yourself. There were whisperings that ceased when you entered the room, and when you woke up about midnight you found the lamp still burning and your mother still up working at something that she put under the chair when you turned over in bed. The old turkey gobbler in the pen was gobbling all day long to his former associates on the outside and eating corn with a gluttony which was to bring its own recompense. You found out for the first time that the business world had been working overtime all

year especially to stock up on Christmas gifts and toys for boys and girls. You had your own gifts for the others hidden where even one of Poe's wonderful detectives could not have found them—in the middle of the wood pile or under the bed, or behind the pictures. There is never a week to equal the one before Christmas.

## THE CHRISTMAS TREE BUSINESS

The Christmas tree business grows annually. Last year approximately seven million trees were used in North America, about a fifth of which were used in Canada and this year the business promises to be larger than ever. Buyers from the United States have been busy in Canada since early September and from New Brunswick alone about half a million trees will cross the border to bring Canada's Christmas cheer to as many of our neighbor's homes. The methods of handling the Christmas trees varies. Some buyers arrange to have trees cut by the farmers or by men whom they may employ. Contracts are made for the trees either on a stumpage basis per piece or bunch, or by purchases of an area supporting Christmas tree stock outright, after being cut by the buyer.

The buyer looks only for trees of perfect form and for that reason trees grown on pasture lands are best suited for the purpose. Fir trees and the blackspruce are preferred. The White Spruce is not desirable because of an unpleasant odor.

There is no fixed rate for trees. This varies considerably according to the size. Usually they are cut and tied in bundles of 1 to 5, taken to the station after trimming for a monetary consideration of between 25 and 35 cents per bunch, retailing in the States for fifty cents to \$2.00 each. From this it would appear that, as usual, the people pay the piper for the handling of the trees from forest to consumer. In spite of low prices, however, the New Brunswicker considers Christmas tree business good business as it gives him a market for a farm product that would otherwise be unsaleable. If left to grow to maturity, these trees would not produce commercial trees for any other industry. A carload of trees contains from 200 to 2500 trees, varying from five to fifteen feet in length with an export value of \$200 to \$350 per carload.

In the olden days girls used to faint; now they pass right out.

.....

Traveller: "Porter, why is the engineer blowing those long blasts of the whistle?"

Porter George: "Guess dat's de startin' whistle fo' de race to de crossin', suh!"

## WORLD HAPPENINGS BRIEFLY TOLD

The Canadian Privy Council will more than likely discuss British Columbia's freight rates appeal on January 25.

J. W. Collins, secretary of the Department of Industry and Commerce, has been appointed New Zealand trade commissioner in Canada.

The Canadian Government has under consideration the establishment of several additional steamship services for the promotion of Canadian trade abroad.

The Washington foreign service buildings commission has allotted \$1,000,000 for the purchase of land, and construction of a new legation and office buildings at Ottawa.

Oriental immigration into British Columbia in 1928 was 573, exactly the same number as in the previous year. The provincial immigration bureau announced the curious coincidence.

The British Government may extend the farm workers' plan, J. H. Thomas, Lord Privy Seal in the MacDonald Government, said when announcing that Canada had agreed to take 3,000 men next year.

Dr. Augusta Stowe Gullen, Toronto, first woman physician to graduate from a Canadian university, was honored recently by the medical alumnae of the University of Toronto, who presented her portrait in oils to the Academy of Medicine.

Hugh Morrison, of Edmonton, 21-year-old son of the late Judge Morrison, of the Alberta district court, and Mrs. Morrison, has been selected as Alberta's Rhodes scholar for 1929. He was chosen from a list of four candidates.

### To Cut Air Mail Schedule

#### Feasibility Of Pick-Up Device Proved By Tests

An air mail pick-up device, capable of receiving and discharging mail sacks while an airplane is in full flight, may cut existing air mail schedules fifteen minutes to an hour, according to the American Air Transport Association, which says that tests of the device already made, promise its future adoption on many of the country's twenty-four air mail routes.

The tests being made at Youngstown, O., have proved the feasibility of catching a small bag of mail as it swings on the end of a 75 foot cable attached to a 'plane in full flight. The device consist of a V-shaped trap, built in the ground. As the mail bag from the 'plane is caught in the trap, the device automatically attaches another bag, which is hauled up into the 'plane. Similar tests are being carried out in the receiving and discharging of mail at sea, on the S.S. Leviathan.

The theory which postal officials, air mail operators and the inventor are working on, is that an air mail 'plane can leave an airport, swoop down on the pick-up device, haul the mail to a similar device near the post office in the city at the other end of the line, and then go on to that city's airport.

#### Canada's Forest Areas

The total forest area of Canada, including the 82,260 square miles of forest on agricultural land, is estimated to be 1,151,454 square miles, and of this about 1,100,000 square miles is essentially forest land which can be utilized to the best advantage under forest.

#### Manitoba Tourist Industry

According to the latest figures Manitoba's tourist industry brought about \$5,667,000 into the province, or an increase of about \$1,000,000 over last year's figures. Convention visitors numbered 37,000, a gain of 8,500 over 1928.

### A Record For Safety

#### Big Eastern Concern Operates Plant For Two Consecutive Years Without Lost-Time Accident

The great campaign for the prevention of accidents and the safeguarding of human life that is being carried on by energetic organizations and the press of the country has many tangible results that are decidedly encouraging to the sponsors of the safety movement.

Last week one of the large industrial concerns of Canada celebrated a full year of freedom from lost-time accidents, by giving a banquet to their more than 400 employees. This company, the Canadian National Carbon Company, Limited, whose head office and plant is located in Toronto, has devoted a great deal of time to educating their employees to the importance of working safely, and the Safety Committee is constantly devising guards for the machines, re-arranging time-tables of working hours and directing the process of manufacture so that each employee can work to the limit of his or her ability with the knowledge that they are safe from accidents that might cause loss of time and injury and reduce their earning capacity.

To make safety more impressive, the Union Carbide & Carbon Corporation presents to each plant which operates for a full year without a lost-time accident a handsome bronze shield. For each succeeding year that the record is maintained a bronze bar is added to the shield. It was to celebrate the second year in which this Canadian plant operated without a lost-time accident and earned the bronze bar that the Company gave their employees the banquet in the handsome, completely equipped cafeteria which is a part of the plant.

Besides the hundreds of employees who attended the banquet, a number of distinguished guests were present and addressed the gathering. These included Mr. R. B. Morley, general manager, Ontario Industrial Accident Prevention Association; Mr. P. Moran, head of Industrial Service Department, National Carbon Industrial Works, Niagara Falls, N.Y.; Mr. James Moran, general manager, Dominion Oxygen Company, Limited, Toronto; Mr. W. H. Winans, head of Industrial Relations Department, Union Carbide & Carbon Corporation, New York; Mr. H. E. Pollock, assistant general sales manager, Canadian National Carbon Company, Limited, Toronto; Mr. W. B. Pritz, assistant works manager, National Carbon Co., Limited, Cleveland, Ohio.

The gathering was entertained by the Eveready Dance Band, which is heard regularly through the Company's own broadcasting station, CKNC, Toronto.

### Recipes For This Week

(By Betty Barclay)

#### MINCEMEAT DELICIOUS

- 4 lemons.
- 2 apples.
- 1 pound currants.
- $\frac{1}{2}$  cup raisins.
- $\frac{1}{2}$  cup chopped nuts.
- $\frac{1}{2}$  cup melted butter.
- 2 cups sugar.
- 1 teaspoon salt.
- 1 teaspoon ground cinnamon.
- 1 teaspoon ground nutmeg.
- 1 teaspoon ground cloves.
- 1 teaspoon ground ginger.
- 1 teaspoon ground allspice.

Squeeze juice from lemons and cook peel until soft. Put through meat-chopper and then rub through a sieve. Add chopped apples and remaining ingredients, mix well and store in jars. Use as a filling for turnovers and pies.

#### HOLIDAY LUNCHEON DISH

- 1 box sardines.
- 1 lemon.
- 1 bunch radishes.
- Parsley or watercress.

Remove cover neatly and entirely from a box of sardines. Place on a platter, and surround with wreath of parsley or cress. Cut radishes in the shape of flowers, and arrange in the parsley. Cut lemons in halves, cross-wise, and then cut in deep points. Arrange at ends and sides of platter, in the parsley. Serve very cold.

While men have greater muscular strength than women, they have less vital stamina.

### Telephones To Ship At Sea

#### Can Communicate By Phone With Liners a Thousand Miles From Shore

Communication by telephone from the mainland with ships at sea became a permanent, commercial project with the inauguration of service between New York and the liner Leviathan, 200 miles off shore, bound for Europe.

President Walter Gifford, of the American Telephone and Telegraph Company, formally opened the service by "ringing up" Captain Cunningham of the Leviathan.

The first actual commercial message to be delivered to the Leviathan by telephone came from Atlantic City, where, in h's hotel room, William H. Rankin, advertising man, chatted for five minutes with Sir Thomas Lipton, a passenger. Rankin is the first man to pay money for such a privilege.

The service was perfect, Rankin said. The noted yachtsman informed the advertising man that he will return to America next June, hoping to win America's Cup with the Shamrock V.

Telephone Company officials said communication with ocean liners will remain good until the vessel is beyond 1,000 miles from shore. The flat rate for a three-minute conversation between New York and the Leviathan is \$21, with an additional \$7 for each additional minute.

### X-Ray Can Be Measured

#### To Determine Combined Effect Of Quantity and Quality

"X-rays may be measured as accurately as the pharmacist measures drugs in the drug store," said Dr. A. Mutchler, of New York, in a paper before the convention of the radiological society of North America, held recently in Toronto. "In modern medicine the greatest forward step was made when methods became known to weigh accurately a given drug and then also when its physiological strength could be determined. The importance of these two determinations arises out of the fact that of drugs not only the quantity must be known, but also their power of effectiveness. The same holds true with regard to X-rays, for the measure of their effect depends neither upon their quantity or quality alone but on the combined measure of both."

#### Fruit Men Study Conditions

Representative fruit men of British Columbia have gone to the Prairies to watch the handling of their crop and learn the attitude of the consumers and the retail trade.

### SUNDAY SCHOOL LESSON

DECEMBER 22

#### THE CHILD IN A CHRISTIAN WORLD

Golden Text: "Suffer the little children, and forbid them not, to come unto Me; for to such belongeth the kingdom of heaven."—Matthew 19:14. Lesson: Matthew 18:1-6; Mark 9:36, 37, 42; 10:13-16; Luke 2:1-20. Devotional Reading: Isaiah 11:1-9.

#### Explanations and Comments

The Birth Of Jesus At Jerusalem, verses 1-7.—Mary and Joseph left their home in Nazareth and went to Bethlehem, which had been the home of their ancestor David, in order to be enrolled in "their own city," as Caesar Augustus had decreed. It is eighty miles from Nazareth, in Galilee, to Bethlehem, in Judea, and the journey must have taken them several days. There in Bethlehem Jesus was born, and Mary laid Him in a manger, because there was no room in the inn. The so-called Church of the Nativity, in Bethlehem, is built over the traditional site of the manger.

The Shepherds and the Angels, verses 8-14.—In this beautiful story we are told that as the shepherds were watching their flocks by night in the field, an angel suddenly stood before them, and the glory of the Lord shone round about them, and they were sore afraid. The angel bade them fear not, for he was bringing them good tidings of great joy which shall be to all people. And this was the good tidings: "There is born to you this day in the city of David, a Saviour, who is Christ the Lord." "He does not simply say, Christ is born, but to you He is born," Luther points out; "neither does he say I bring glad tidings but, To you I bring glad tidings of great joy. Furthermore, this joy was not to remain in them, but it was to be to all people."

"There is much we do not know about the angels. But two very wonderful things we do know. One is that they represented some of the glory of heaven made visible. The other thing is that they represented the message of heaven made articulate. The unseen found its way to the human eye. The unheard found its way to the human ear. And we know enough to be quite sure that in a very real sense heaven is all the while trying to become visible to mortal eyes and audible to human ears. We may think of the angels as representing the wistfulness of heaven bending eagerly over an earth which is strangely and pathetically slow to understand."

The Shepherds and the Babe, verses 15-20.—When the angels departed the amazed shepherds said to one another, "Let us go to Bethlehem and see what the Lord has made known to us." They were astonished at the message that had come to them, but they were not incredulous. They went in haste, and found the holy family. To Mary and Joseph they told what they had heard concerning the Babe. All marvelled, and Mary retained the words in her heart, pondering them over and over.

The shepherds returned to their humble task of keeping their flock, an outburst of praise upon their lips. "Glory to God in the highest. And on earth peace among men in whom He is well pleased."

### Contesting Canada's Claim

#### Must Occupy Arctic Before Ownership Is Proved, Says Norwegian Premier

Canada's position with regard to ownership to the Arctic archipelago is unaltered from the claim reiterated in June, 1923, by Hon. Charles Stewart, Minister of the Interior, it was made known in Government circles at Ottawa. News despatches from London had intimated that Premier Mowinckel, of Norway, contested the right of this country to mark out sectors of the Arctic as possessions in which Canada's interests were paramount. The Norwegian premier asserted in a speech at Bergen that Norway adhered to the view that territory could be claimed only when it had actually been occupied, and that since Canada had not occupied all the Arctic, this country's interests in unoccupied territory could not be admitted.

That the opinions of Premier Mowinckel in this respect will not affect the right which Canada claims to the Arctic islands north of the Canadian mainland, between longitude 60 and longitude 141, was flatly asserted by Government officials. Several attempts had been made in the past to disprove Canada's ownership of that archipelago, but recognition was now general, and Norway appeared to be the only nation that was still contesting it.

### Was Out Of Place

#### Use Of Old Formula Upset Decorum Of British House

The decorum of the British House of Commons was upset the other day by a members use of time-honored formula which proved, in this instance, quite out of place under modern conditions. Miss Margaret Bondfield, Minister of Labor, gave an answer which did not satisfy Sir Frederick Hall, Conservative.

"May I press the Right Honorable Lady," began Sir Frederick, when he was interrupted by uproarious shouts of "No!" Sir Frederick apologized and reframed his query.

#### Canada's Highways Important

The highways in Canada are becoming increasingly important year by year in the economic structure of the country. Over them is carried a very heavy traffic, both passenger and freight, especially between the large cities and towns. At the end of 1928 the total mileage of surfaced roads in Canada was 64,121.

## WINDOLITE

### The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold —will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

### SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child Al adores and sail for France. Al, broken by the loss, becomes a derelict. Months later he drifts into Blackie's place at night, where Grace Farrell, who still loves him, shames him into the promise to stage a come-back. They leave the club together shortly after dawn, but as they reach the street Al staggers.

### CHAPTER XXVI.

"What's the matter?" Grace asked anxiously.

"It's just the effect of coming suddenly into the sunlight after all that has happened—back there. I'm not quite sure of myself and my directions. And I look so terrible down-and-out in this bright daylight."

It was true, Al's appearance was painfully seedy, but Grace dismissed that.

"We'll soon fix everything," she said confidently. "And Al—?"

"Yes."

"If I'm to help you, you must give me your full confidence—tell where you're living and promise not to run away again."

"I will, Gracie," Al answered earnestly, in the tone of a child who wants desperately to make a good impression. "I'll promise."

Grace smiled in spite of her attempt to appear a trifle stern.

"Well, then, come along."

As they strolled along the sunlit streets, with Grace occasionally sending a happy glance up into Al's face, she could not help but realize how their positions were reversed from the time when she had first known him. Then she had been a frightened child and big, generous Al had protected her from the rowdy customers at Blackie's place. Now she was almost leading that same man as if he were a child, protecting him and encouraging him constantly. Her heart was ready to burst with pride and love.

"Where do you live?" she asked.

"It's over there," said Al, vaguely indicating the East Side. "You know"—he paused irresolutely—"I hate for you to walk over there. It's such a dump. Just a rickety, cheap hotel—almost like a flop house."

"That doesn't matter to me," said Grace quickly, "but if you'd rather go home alone, all right. Only don't think

I care about your clothes or where you live, or anything like that. I just care about you."

There was no mistaking the look in Grace's eyes—Al realized at last that she loved him. Yet he marvelled at it—how could she love a down-and-out like him? He felt a rapid throb under his dilapidated vest, an emotion he had not known for a long time. He wanted to put his arms about her and tell her how much she meant to him, but he held back. This was neither the time nor the place.

"Before you go home," suggested Grace, "walk over to the Square with me. I live near there. We can sit on a bench and talk for a while. It will be good for you."

Al nodded. Presently they emerged from the canyons of streets to the wide, green expanse of Washington Square.

"See how beautiful it is," said Grace. "I thought it would make you feel better. The leaves are turning red and yellow. And see how nice the green buses look passing under the trees. Here, we'll try this bench."

Al sat down and relaxed, his eyes half closed. The autumnal morning sunlight slanted down from between two skyscrapers, spreading fan-shape across the level expanse and lighting the white arch. Italian slum children played on the south side, while in the northern part of the Square the children of the rich toddled about, under the watchful eyes of nurses.

"You say you live near here?" Al asked finally.

"Yes, just around the corner on Waverley Place. I have a room."

"Oh yes." Some hint of Grace's rather bleak and lonely life was borne home to Al in that one sentence—"I have a room." She had a room but, like thousands of other girls in the metropolis, she had no real home, no family, nothing much but dreams. Yet she lived bravely and without murmuring, thought Al, while he—the sentence remained unfinished.

He rose. "Gracie, you're the most wonderful girl in the world. I know it—at last. We'll talk a great deal about that later. But now you must go home and get some sleep. I'll go my way and—I'll see you tonight at Blackie's."

Grace stood before him, eyes glowing. "Thank you, Al," she whispered. She felt her hand seized. Suddenly he leaned over and kissed it.

"Bye, little one, it's I who should do the thanking. . . . You'll see me tonight and, if clothes can make a difference, you'll see a different person. You just won't know Al Stone in his glad garments. And listen—you see that hotel over there—the white one?"

"Yes."

"That will be my address tomorrow. Then we'll be near each other and I can walk home with you every morning from Blackie's place. Tell Blackie I'm coming over to try out with his show if he'll give me a job."

Al was walking away, with Grace staring after him. He strode along briskly now and when he reached the edge of the Square he turned to wave good-bye to the intent little figure. For a moment Grace waited after he had disappeared, then she turned the other way toward her own home. Passers-by who saw her face knew that one girl had found happiness.

Al had over-estimated his strength in keeping up that rapid pace. He maintained it until he reached his hotel bedroom, then he sat down on the side of the bed, verging on physical collapse. The room's dinginess and the feeling communicated of the life he had been leading, brought a sudden wave of depression. But he fought it off, rose and began pacing up and down.

"I won't be licked," he told himself sharply. "Throw that little girl down after all she's done for me—never!"

He quickly opened a bureau drawer, took out an old sock and drew forth a roll of bills. The bills were quickly stuffed into his coat pocket, then he ran from the room as if escaping from a scene of pestilence.

An hour later he entered a men's haberdashery. He was shaved and his hair was trimmed. A clerk looked at him suspiciously, but finally deigned to approach.

"I want some clothes. Shirts, ties, socks, shoes, suits—the whole thing."

"Yes?" The clerk's nose rose a trifle higher.

"It's all right," said Al, and added simply, "I have the money." When he drew out his roll of bills the clerk's eyes bulged.

"I want the best you've got—and suppose we start on a blue serge suit."

## Christie's Christmas CAKES and PUDDINGS

The most seasonable offerings for your family or guests. The very embodiment of old English cheer.

I always liked blue serge. Then I want some tweeds and some evening clothes."

The clerk saw a big commission ahead and stepped lively to supply Al's wants. But he couldn't help wondering if this bum had stolen the money or if some rich relative had suddenly died and left him a fortune. As they went from counter to counter Al's sense of shame at his run-down appearance left him; he even began to take a keen delight in the wonder he excited among the clerks and the other customers.

Grace had gone home to sleep as Al suggested. It was sleep broken by rosy dreams, during which she seemed to be floating gently under a clear blue sky. When she awoke it was afternoon. Soon she was hurrying toward Blackie's club.

Now it was well on toward midnight and Al had not appeared. Grace bent over her accounts and checked the waiters as they passed by her. Was Al going to fail her; would he prove too weak to make the comeback, after all her efforts? She drove the thought resolutely from her.

(To Be Continued.)

## WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweeten the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly do harm—they always do good.

### Saskatoon To Extend Paving

Subject to the approval of the Local Government Board, the council at Saskatoon authorized the expenditure of (\$159,000) on paving and road making for 1930. Of this amount, \$104,000 will be for permanent paving.

**Cheapest Of All Oils.**—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

She came into the police station with a picture in her hand.

"My husband has disappeared," she sobbed. "Here is his picture. I want you to find him."

The inspector looked up from the photograph. "Why?" he asked.

## Health Agencies Plan Co-operation

Canadian Associations With \$2,000,000 Annual Budget Meet In Ottawa

Very quietly, and without benefit of publicity, agencies that expend annually \$2,000,000 in promotion of Canadian health, met in Ottawa the other day, to discuss ways and means of co-ordinating their efforts and eliminating overlapping.

So successful was this effort to bring into the field of national health, the same spirit of co-operation that is making giant business mergers one of the signs of the times, that the fourteen agencies participating are considering adopting a set, annual date for regularly pooling their wisdom and mutually arranging their programmes.

The meeting was called by Dr. J. H. King, Minister of Pensions and National Health, and presided over by Dr. J. A. Amyot. A list of the organizations represented, follows:

Red Cross, Canadian Tuberculosis Association, Canadian Social Hygiene Council, Canadian Council on Child and Family Welfare, St. John's Ambulance Association, Canadian Dental Hygiene Council, Canadian Nurses' Association, Canadian Medical Association, National Council of Women, Canadian Public Health Association, Canadian National Committee for Mental Hygiene, Federation of Women's Institutes, Federation of French-Canadian Women and Victorian Order of Nurses.

## One Woman In Eight Dies From Cancer

While Male Mortality One in 11, Says Canadian Radiologist

Out of every eight Canadian and American women, one dies of cancer, according to Dr. Gordon E. Richards, Toronto, chairman of the convention of the Radiological Society of North America, held in Toronto, recently. Dr. Richards is director of the Department of Radiology in the University of Toronto.

Conditions, however, are steadily improving.

"Even within the past five years, improvements in methods of treatment have increased the number of cures of cancer in women very greatly," he said, "and cures of throat and mouth cancer have increased by twenty-five per cent. during that period."

Dr. Joseph Colt Bloodgood, of Johns Hopkins University, and one of the most renowned cancer specialists in the world—who also attended the convention—stated in a recent interview that public education is, today, the greatest weapon in the fight against this disease.

### Why He Honked

A young road-hog known for his determination never to be overtaken was going at great speed one day when he heard an insistent "honking" behind him.

He turned and saw, just on his hind wheels, a baby car driven by a wild-looking individual.

Back he turned to his wheel, down went the accelerator pedal, and up rushed the speed indicator.

Seventy-eight miles an hour were touched, but still the hooting continued.

At last worn out, the speed maniac slowed down and drew to the side of the road.

"Come on, then, if you must pass," he cried.

"I'm sorry," said the driver of the baby car, "but I'm hooked on."

Good for Toothache—Minard's Liniment

## Little Helps For This Week

"Let us walk by the same rule, let us mind the same thing."—Phil. iii. 16.

Life hath a load Which must be carried on, and safely may, Yet keep those cares without thee; let the heart Be God's alone, and choose the better part. Through all thy actions, counsels, and discourse, Let mildness and religion guide thee out; If truth be thine, what needs a brutish force? But what's not good and just ne'er go about.

—Henry Vaughan.

Elizabeth Fry drew up for her own guidance the following rules:—

1. Never lose any time. I do not think that lost which is spent in amusement or recreation every day; but always be in the act of being employed.
2. Never err the least in truth.
3. Never say an ill thing of a person when thou canst say a good thing of him; not only speak charitably but feel so.
4. Never be irritable or unkind to anybody.
5. Never indulge thyself in luxuries that are not necessary.
6. Do all things with consideration; and when thy path to act right is difficult, put confidence in that Power alone which is able to assist thee, and exert thy own powers as far as they go.

Corns are caused by the pressure of tight boots, but no one need be troubled with them long when so simple a remedy as Holloway's Corn Remover is available.

### Railway Speed Record

The speed record for transcontinental rail travel is held by the Canadian National Railways, one of the system's oil-electric locomotives having crossed from Montreal to Vancouver, 2,944 miles, in 67 hours.

## From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did." —Mrs. Milton McMullen, Vanessa, Ontario.

Geo. Malton, Jas. Flaws, W. Reid and M. Moriarty.

## LOCAL POOLROOM ENTERED

L. Gillespie, who has been representing the Fuller Brush Co. in this territory and who has been canvassing the town for a few days, broke into the local barber shop and pool room, operated by Edwards and McQuade, on Thursday night last and succeeded in taking about \$10.00 in silver, a quantity of cigarettes and a couple of gold watches. The accused was suspected when the theft was reported and later he confessed to entering the building by way of the coal chute. Constable Moriarty conducted his prisoner to Calgary Sunday morning and his trial will be held in that city.

Pleading guilty to a charge of breaking into the Carbon Barber and Tobacco Shop on December 13, Louis F. Gillespie was sentenced to six months' imprisonment with hard labor by magistrate Walter S. Davidson in City Police Court on Monday.—Calgary Albertan.

"Why are you divorcing your husband?"

"Well, the other night he was reading the paper and I slipped up and kissed him on his bald spot—"

"Yes."

And he said, "Quit playing honey, and get out those letters I dictated yesterday."
